

REMOTE KEYPAD KP200

KP200 is a wireless, high tech, and durabal remote keypad that allows you to control your security system from wherever it is deployed.

It communicates with a Control Panel via radio wave, sending signals to "Arm", "Home (Part) arm", & "Disarm" the system

Safeguarded by a Tamper Proof Switch, protects the enclosure from being opened or removed from the mounting surface. Power conservation is another design feature; the Remote Keypad is powered by Lithium battery and consumes power only when in operation, thus ensuring long battery life.

FEATURES

- A 16-button backlit keypad for easier night use
- Power conservation that consumes power only when in operation
- Low Battery detection
- Tamper protection protects the enclosure from being opened or removed from it's mounting surface
- IP44 Water Proof

Specifications

Power: Lithium CR2450 battery x 1

Battery life: 7 years or over¹

Radio frequency 868.6375 Mhz

Range: over 300 meters in open space

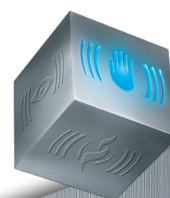

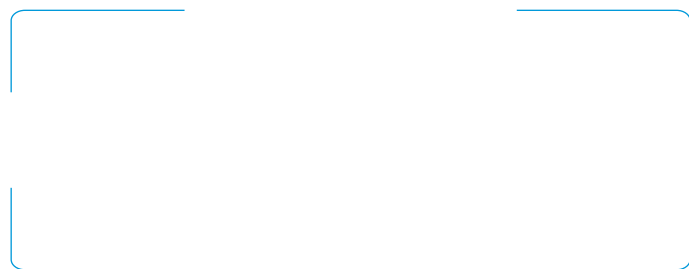

Operating temperature: -20° to 50°C

Humidity: up to 95% non-condensing

Dimensions: 103 x 72 x 18 mm

** Note¹: Battery life is calculated at an average of 4 activations per day*
