### QUALITY ASSURANCE

Certificate Number: FM 35285

CE 0682

MADE IN ENGLAND

### WARRANTY

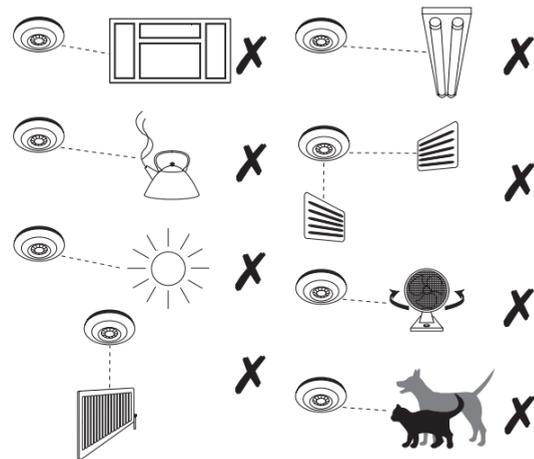

10 year replacement warranty.

The Prestige 360 DT is designed to detect the movement of an intruder and activate an alarm control panel. As the Prestige 360 DT is not a complete alarm system, but only a part thereof, Texecom cannot accept responsibility or liability for any damages whatsoever based on a claim that the Prestige 360 DT failed to function correctly.

Due to our policy of continuous improvement Texecom reserves the right to change specification without prior notice. All specifications are measured at 20°C (68°F).

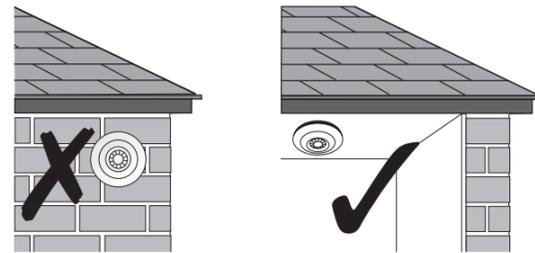

### 1 CHOOSING A LOCATION

Avoid common false alarm sources

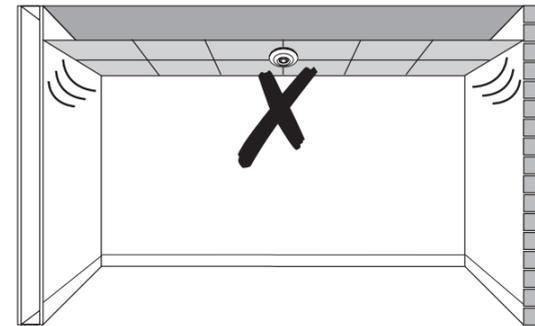

### 2 MOUNTING

For indoor use only

### 3 MOUNTING

Mount on a stable surface

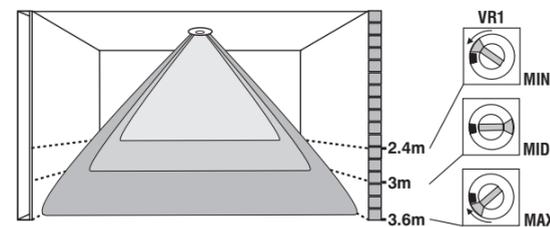

### 4 MOUNTING & COVERAGE

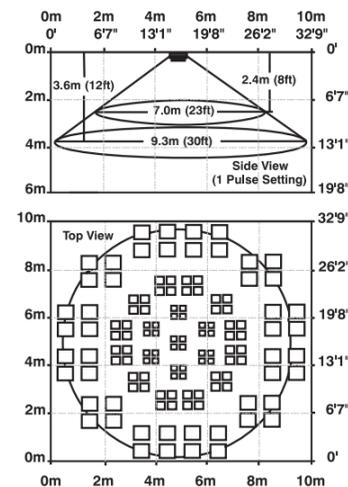

The recommended mounting height for the Prestige 360 DT is 2.4m (8ft). The detection range diameter will increase if mounted higher than 2.4m and decrease if mounted lower.

To open the Prestige 360 DT partially undo the retaining screw then insert a flat-head screw driver into opening slot and twist (see Section 6). The front cover may now be eased off from the underside of the casing.

Refer to Section 7 to select suitable knockouts for mounting the back on the ceiling.

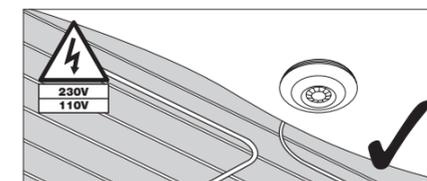

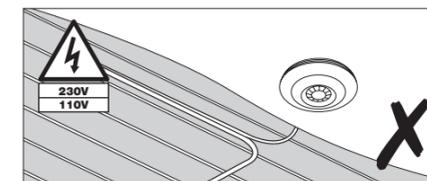

#### Volumetric Coverage

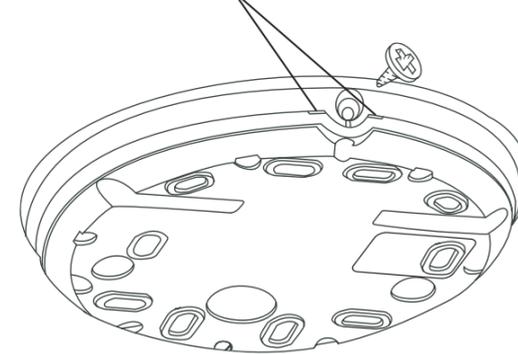

### 5 WIRING

Do not run cable parallel to mains wiring

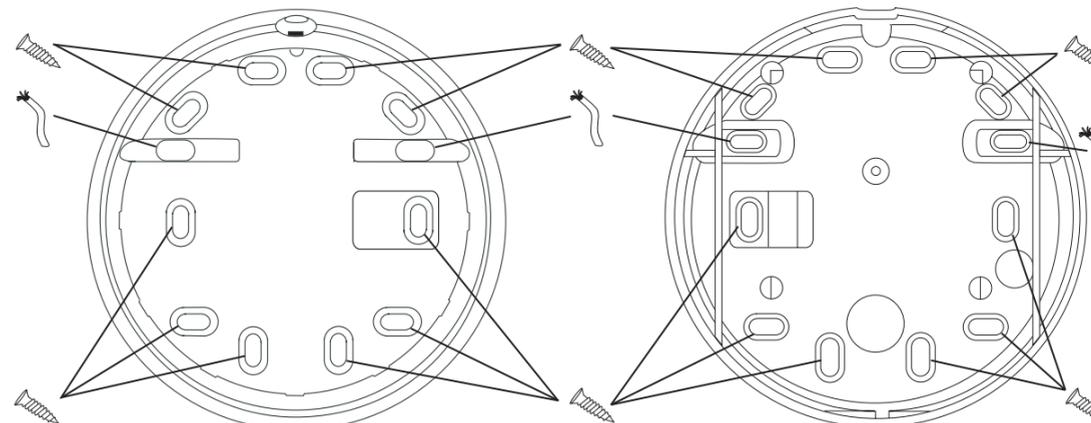

### 6 OPENING THE DETECTOR

#### OPENING SLOTS

### 7 DETECTOR KNOCKOUTS

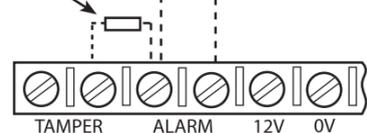

## 8 EOL RESISTOR JUMPER LINKS

The jumper links JP3 and JP4 (see Section 9) are used to select resistances for End-of-Line (EOL) wiring applications.

**JP3** Selects the End-of-Line resistance. Equivalent to wiring a resistor of the selected value as shown.

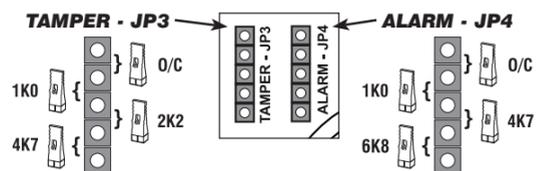

**JP4** Selects the resistance across the alarm relay. Equivalent to wiring a resistor of the selected value as shown.

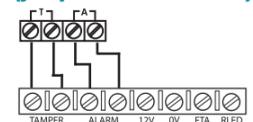

If EOL wiring is not used, the headers should be left in the default (O/C) position. If the required resistance values are not available, leave the headers in the O/C position and wire in external resistors as normal.

| EOL Settings for Texcom Panels  | JP3 | JP4 |
|---------------------------------|-----|-----|
| Premier & Premier International | 2k2 | 4k7 |

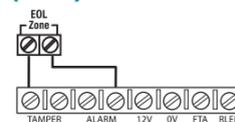

## EXAMPLES OF EOL JUMPER LINK USE

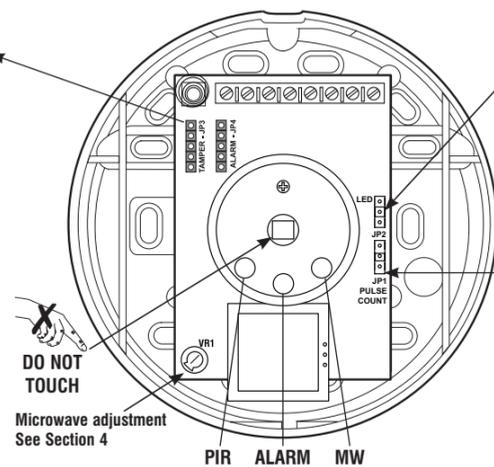

### Double Pole (jumper links not used)

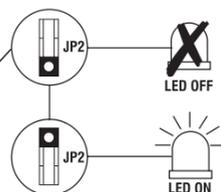

### Dual End-of-Line (DEOL)

## 9 DETECTOR SET-UP

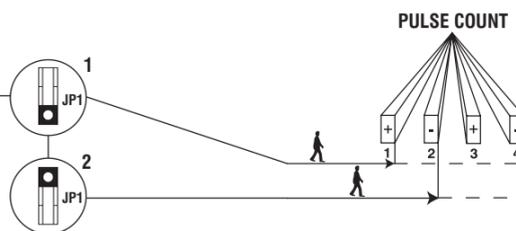

**DO NOT TOUCH**  
Microwave adjustment  
See Section 4

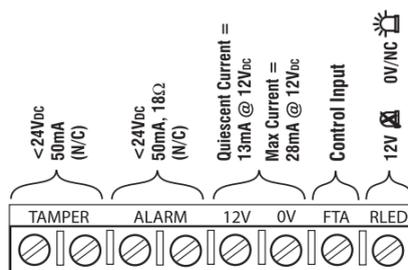

## LED FUNCTIONS

| Detector Status | Indication |
|-----------------|------------|
| Alarm:          | Red        |
| PIR:            | Green      |
| Microwave:      | Orange     |

## 10 WIRING & DETECTOR SET-UP

**L/FTA** Latch/First to Alarm input. Connect to "Set Positive" or "Alarm Positive" on alarm control panel. (Not suitable for use on entry/exit or intermediate (inhibited entry) zones).

**RLED** Remote LED disable input. Connect to 12VDC to disable LED, 0VDC to enable LED.

## 11 STANDARDS & APPROVALS

**Detector Standard:** EN 50131-2-4 Grade 2 Class II.

**System Standard:** Suitable for use in a PD 6662/BS EN 50131-1 Grade 2 system, Environmental Class II.

**Weee Directive:** 2002/96/EC (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: [www.recyclethis.info](http://www.recyclethis.info).

**RoHs Directive:** 2002/95/EC RoHS Compliant. Hereby, Texcom Ltd declares that this device does not contain lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE) in more than the percentage specified by EU directive 2002/95/EC, except exemptions stated in EU directive 2002/95/EC annex.

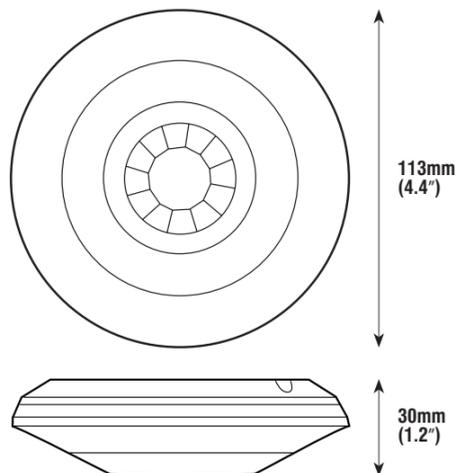

**CE Directive:** 2004/108/EC (CE directive): Hereby, Texcom Ltd declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2004/108/EC.

**R&TTE Directive:** 1999/5/EC (R&TTE Directive): Hereby, Texcom Ltd declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
