

1. Добавяне на ANPR камерата в съответното меню:

The screenshot shows the DSS (Digital Surveillance System) web interface. The top navigation bar includes tabs for General, Business, Mobile, Card Manage, Cascade, System, and Statistics. Below this, there are sub-tabs for Org, Account, and Device. The main content area displays a table of devices with columns for Encode, IP/Domain, Video Server, Picture Server, Device Name, Type, Org, and Status. A dialog box titled 'Add ANPR Device' is open, allowing the user to enter details for a new device. The dialog box contains the following fields:

- Manufacturer: DAHUA (dropdown)
- IP Address: *
- Device Port: 37777 *
- Username: admin *
- Password: *
- Device Name: *
- Org: root *
- Video Server: Center Server (dropdown) *
- Picture Server: Center Server (dropdown) *

The 'Add' button is highlighted in blue, and the 'Cancel' button is in gray.

2. Добавяне на данни за съответния клиент, в случая само регистрационния номер на автомобила му е важен.
