

Polycarbonate External Sounder & Strobe Unit

The Odyssey 1 from Texecom redefines the standard that external sounder and strobe units are judged by. Texecom's commitment to quality, design and innovation make the Odyssey 1 the number one choice for installers and end-users alike.

Outstanding features:

- 115db Volume
- IP65 Sealed Electronics
- Patented Safety Engineer Hold-off Mode
- Screw, Lid & Wall Tamper
- Patented Safety Engineer Hold-off Mode
- Twin Alternating LEDs
- Twin Piezo Sounders
- Advanced Microprocessor Technology
- Strobe Tube Saver
- Selectable SAB/SCB Mode
- Low Current Mode
- Polycarbonate Construction
- EN 50131 Grade 3

Texecom
Designed to Perform

Triple Tamper Detection

Lid, wall and screw tamper detection is provided as standard. Texecom's proprietary wall tamper mechanism ensures maximum reliability with excellent responsiveness. Screw tamper provides the earliest possible indication of unauthorised access to the unit.

IP65 Sealed Electronics Module

The advanced electronic module of the Odyssey 1 is protected by a robust inner cover assembly with gasket seal. This increases protection from dust and moisture, sealing to IP65 rating which enables prolonged exposure to harsher environments without compromising performance or functionality.

Patented Engineer Hold-off Mode

Installation and maintenance is made quick, simple and safe by a revolutionary patented safety engineer hold-off mode. On power-up the hold-off mode is automatically enabled, preventing the unit from sounding until the tamper circuit is secure. This enables "one trip up the ladder" installation Hold-off mode can be re-invoked at any time from the control panel, ensuring easy maintenance and verification.

Specifications

Supply Voltage:	13.7V (nominal)		
Current Drain			
Quiescent (inc charging):	15mA		
Strobe:	100mA		
Sounder:	SAB	LC	SCB
	405mA	190mA	30mA
Battery:	NiMh Stack, 7.2Vdc, 320mAh		
Strobe:	1W, 1Hz Flash Rate		
Dimensions:	318mm x 201mm x 66.5mm		
Packed Weight:	1250g (45oz) approx		

European Standards

Safety: Conforms to European Union (EU) Low Voltage Directive (LVD) 73/23/EEC (amended by 93/68/EEC).

EMC: Conforms to European Union (EU) Electro-Magnetic Compatibility (EMC) Directive 89/336/EEC (amended by 92/31/EEC and 93/68/EEC).

Approved to BS EN 55022 Class B and BS EN 50130-4 : 1996.

PD 6662 & EN 50131-1 Grade 3 Environmental Class IV.

The CE mark indicates that this product complies with the European requirements for safety, health, environmental and customer protection.
