Smart PSS V1.12.3

Dahua Vision Technology

New Features

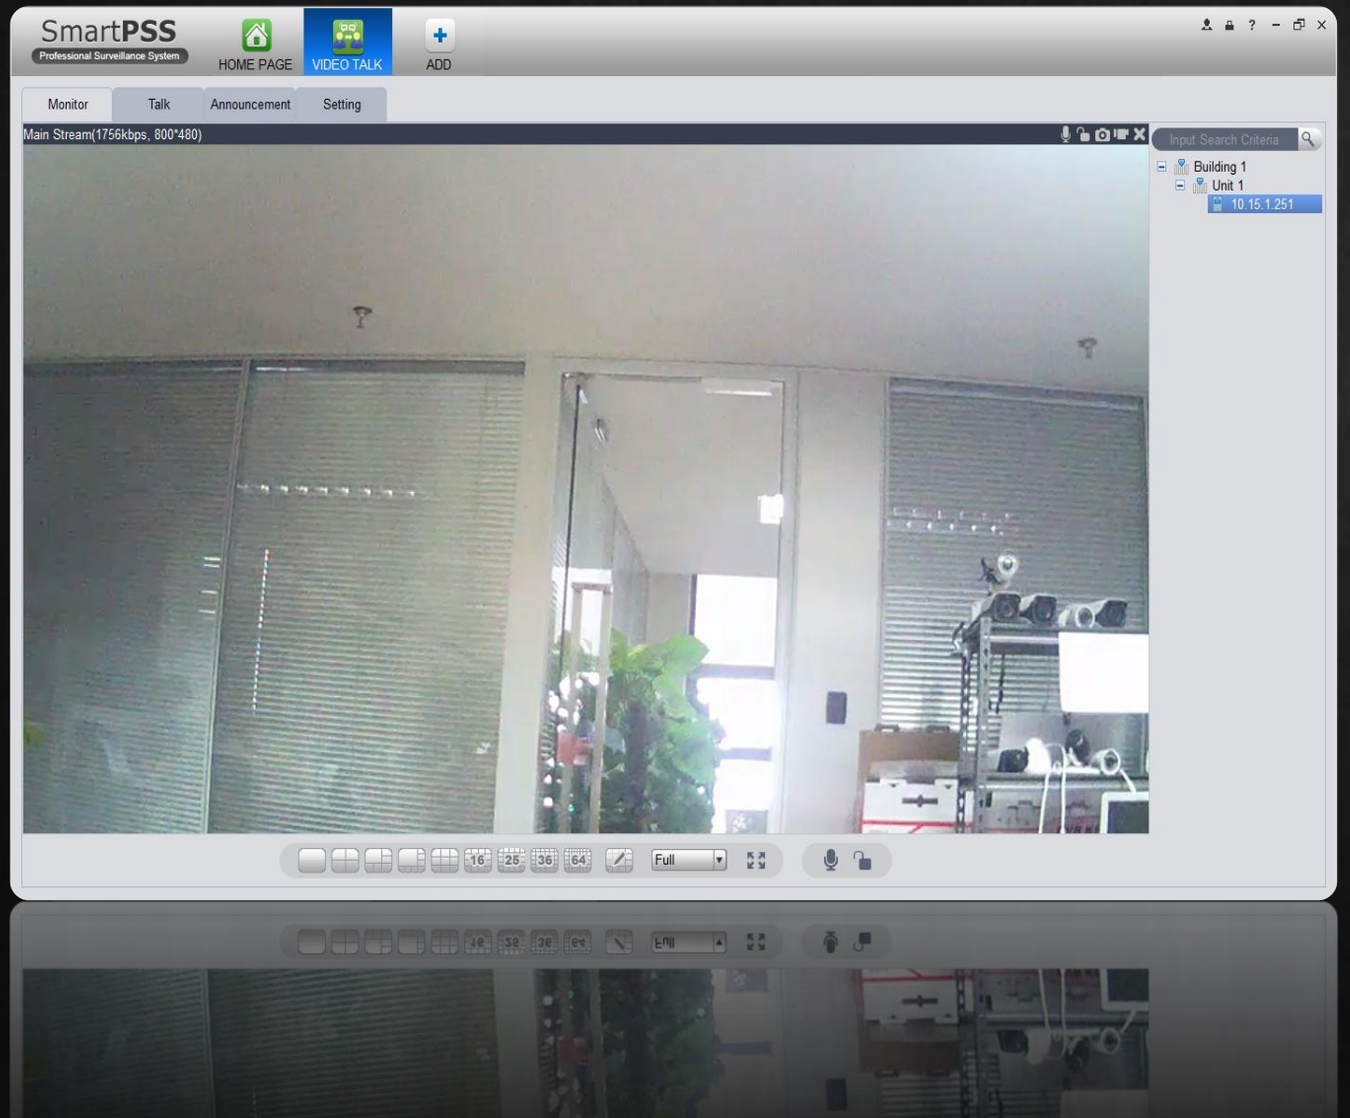
Monitor

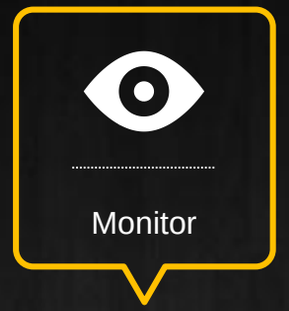
Call

Announcement

VIDEO TALK

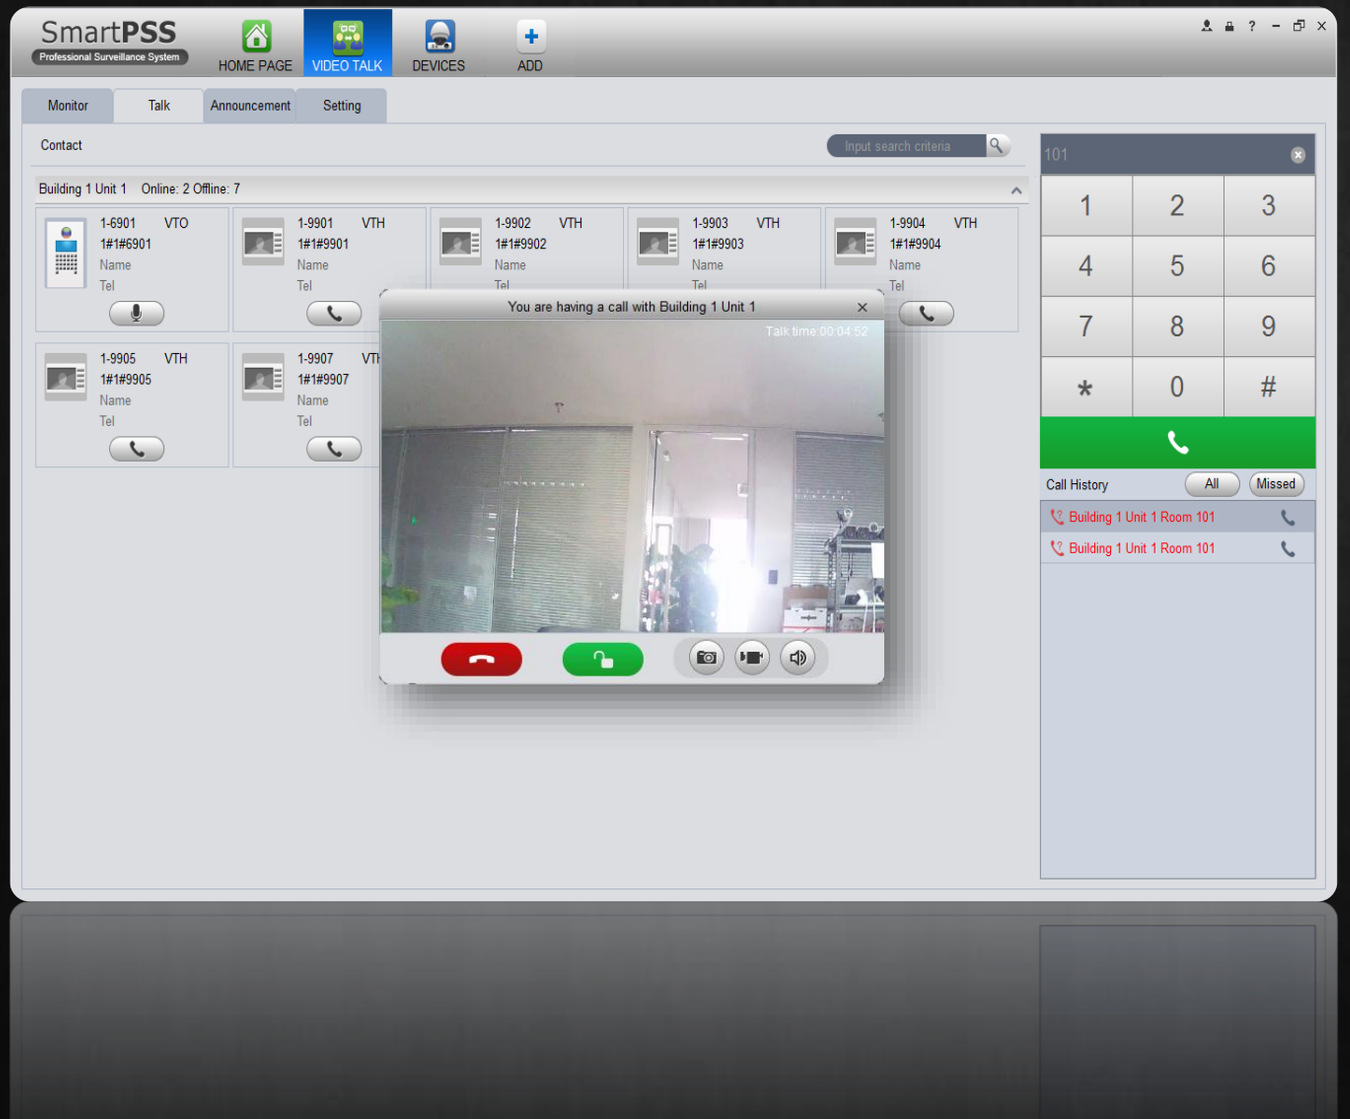
New Features





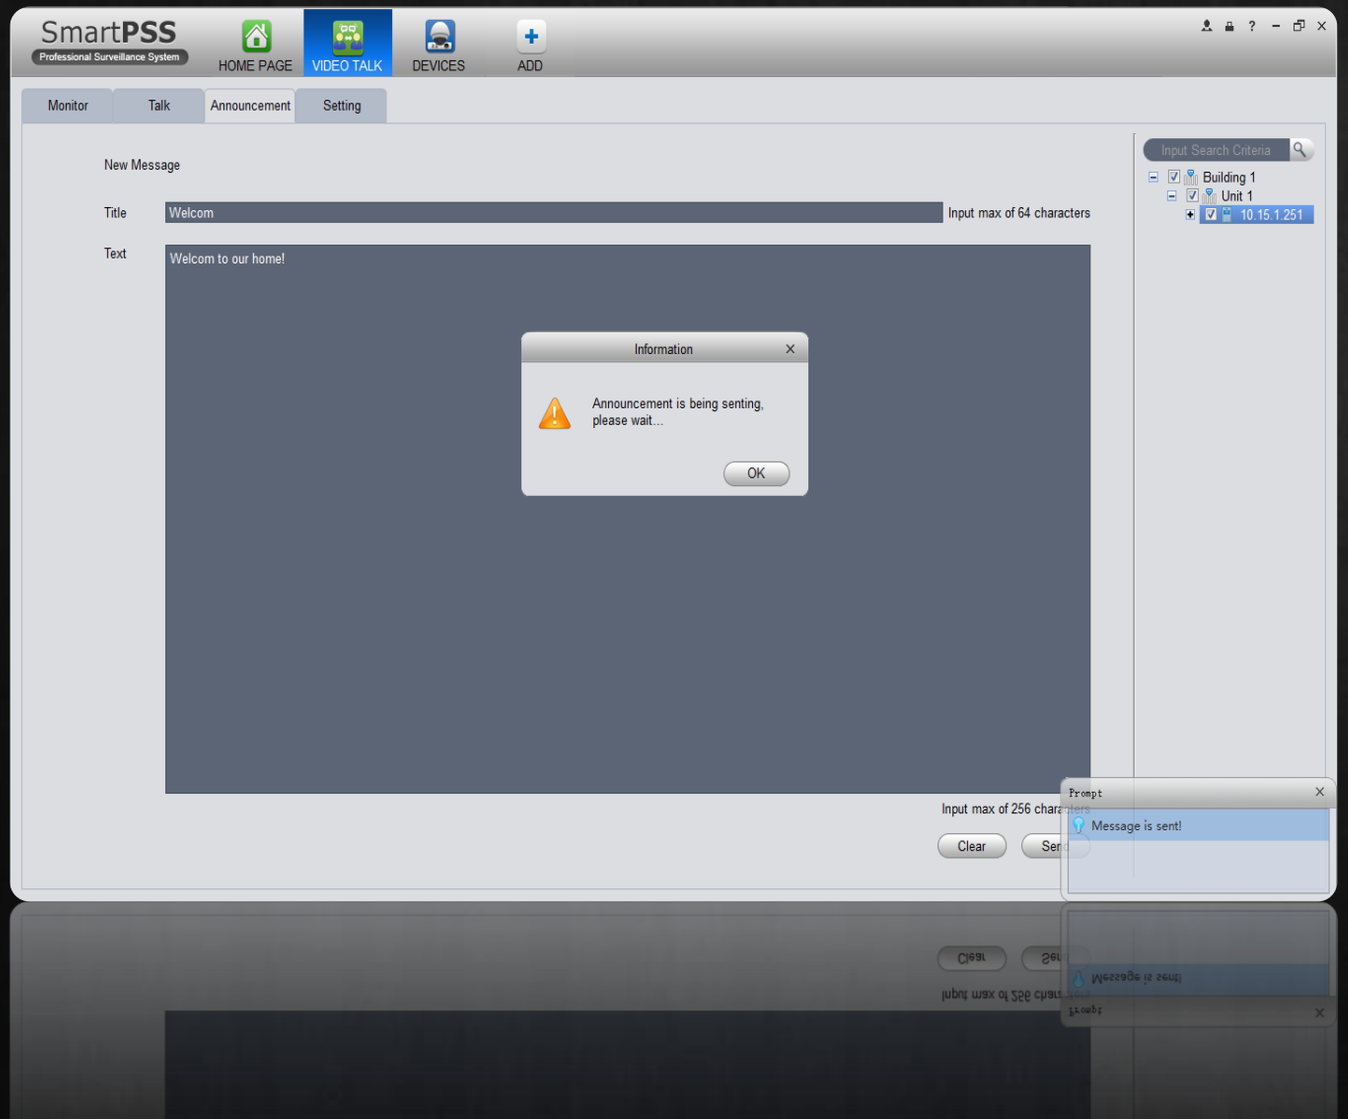
- Mnitor VTO in the Video Talk module.
- Through the monitor window, SmartPSS achieve following functions:
  - Talk to VTO
  - Unlock the door
  - Movie Capture
  - Record on the local machine
- Support up to 100 VTO, and 300 VTH connected to each VTO.

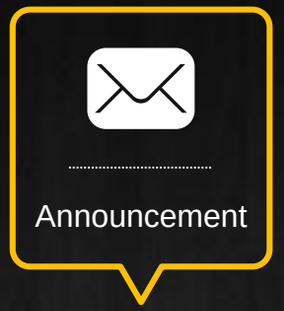
New Features



- Enable users to call up VTO & VTH in talk sub module.
- Note that the talk is unidirectional by calling from client to VTO, while the talk is bidirectional by calling from VTO to client. Besides, talk between client and VTH is bidirectional.
- Missed call will be shown in the lower-right of the interface for next call.

New Features





- SmrtPSS allow users to send message to digital VTH in announcement sub module.

Thank you

Smart PSS
