

Adobe® Solutions Network

Certified Training Providers

Attention software training providers: the Adobe Solutions Network (ASN) is dedicated to helping you successfully market your Adobe product courses. The Adobe Certified Training Provider (ACTP) program offers convenient access to the technical information and training materials you need to present professional, in-depth training courses on the leading graphics products from Adobe. Plus, it links you to Adobe customers who are seeking product training in your area and around the globe.

BUILD YOUR BUSINESS WITH ADOBE

Because of the vital role you play in helping Adobe customers master our products, we're committed to supporting you. The ASN offers a range of marketing opportunities, from a listing in the Partner Finder search engine on Adobe.com to eligibility to participate in the ASN Pavilion at trade show events. And we're always on the lookout for ways to do more. When you join the Adobe Certified Training Provider program, you can take advantage of a deeper relationship with Adobe and gain access to Adobe customers in your markets.

STAY INFORMED ABOUT ADOBE PRODUCTS AND SERVICES

Whether you prefer to develop your own training curriculum or use the training materials that Adobe provides, access to in-depth Adobe product information is critical to your success. That's why we focus on providing you with timely information and resources. From a monthly ACTP newsletter to product demonstration files available online, the ASN delivers the tools to help you present first-rate training.

TRAIN ON PROFESSIONAL PRODUCTS

Adobe develops and markets leading Web, print, and dynamic-media design products used by millions of designers worldwide.

Our products enjoy a reputation for quality and comprehensiveness that's hard to match. When you train on Adobe products, you become part of a global network that's dedicated to being the best.

BECOME AN ACE

An important step in becoming a Certified Training Provider is taking the Adobe certification exam for the products you know best. A passing mark on any exam (administered by an independent third party) certifies you as an Adobe Certified Expert (ACE) and enhances your professional reputation. When you become an ACE, you can promote your affiliation with Adobe, which will help you secure Adobe product-training jobs and market other professional skills. And ACE certification means you are one step closer to becoming an ACTP.

Join the Adobe Certified Training Provider program today and take advantage of access to in-depth information and training materials, valuable promotional opportunities, and the support you need to train people on Adobe products. Visit <http://partners.adobe.com> and discover the power of membership!
