

## **Welcome to Adobe® Photoshop® CS and ImageReady® CS**

Please take a minute to read this important information.

---

For information on system requirements, installing, and launching Photoshop and ImageReady, please read the HowToInstall file located in the same folder as this ReadMe file.

After you install Photoshop, please refer to the Photoshop CS ReadMe file located in the Photoshop application folder. The ReadMe file contains important last-minute information. You may want to print it and keep it with your manuals for reference.

For your convenience, a PDF version of the User Guide and Quick Reference Card are included with Photoshop.

For an in-depth overview of new features in Photoshop and ImageReady, please see the New Feature Highlights.pdf in the Support and Registration folder. In the same folder, the At A Glance.pdf is a brief, two-page overview of new features.

### **ADOBE® READER® 6.0**

Adobe Reader software lets you view and print Portable Document Format (PDF) files. You can install the Adobe Reader 6.0 software by double-clicking the reader installer in the Adobe Reader 6.0 folder.

### **GOODIES**

Don't pass by the Goodies folder without having a look inside! This folder contains a variety of useful items including textures, color swatches, channel mixer presets, printer drivers, optional plug-ins and extensions.

### **STOCK ART** *(not available on Educational or ESD versions)*

50 professional stock photographs are included for your use in the Stock Art folder located inside the Goodies folder. You may preview thumbnails of these images in Photoshop's enhanced File Browser. The use of these images is governed by the Adobe Photoshop End User License Agreement. To use the stock art files, open them from within Photoshop. These files have been saved using JPEG compression at the highest quality. To preserve maximum image quality, save them in Photoshop format. Repeated compression using JPEG can degrade image quality.

Adobe does not certify compatibility or provide support for any third party software, plug-ins and demonstrations.

For more information about Adobe products and how to purchase them, visit the Adobe Web site at <http://www.adobe.com>, or call 1-800-833-6687 within the U.S and Canada. Outside North America call your local Adobe authorized distributor.
